The exhibition captures the spirit and memories of the time spent together in Paris. Six international art approaches are represented. The artists in the show work in a wide range of media. The exhibits presented in Pforzheim pick up on ideas inspired by the residency in Paris in 2021/22, including works that were started there and developed further on return to Germany.

The artists got to know each other as residents at the Cité internationale des Arts in Paris, a studio complex in the heart of the city. Studios with living and working facilities are made available there to about 300 artists from all over the world. The respective scholarships are awarded both internationally, as well as nationally by the federal states of Germany. Such a residency at the Cité des Arts not only enables the artists to spend plenty of time in Paris and thus become immersed in the diverse cultural landscape of this European capital, but moreover, gives them the opportunity to reflect on their own practice and enter into dialogue with artists from all over the globe.

The exhibition "Souvenir de Paris" is a charming résumé of the approaches of six artists who were able to benefit from the special atmosphere at the Cité. It is intended as a tribute to the exceptional flair of the Cité des Arts as an institution – and to the friendships formed there!
